Part-1

Core Java

with interview preparation

TOPICS COVERED

- Download & Install Java & Eclipse
- Features, JDK, JRE, JVM
- Data types, Variables & operators
- Input/Output, Type conversion
- Arrays, Control statements
- Exception Handling
- Object Oriented Programming
- Interfaces
- Packages
- File Handling
- Persistence & Serialization*
- Multithreading
- Annotations*
- Dependency Injection*
- Full Collections Framework*
- Lambda expressions, FI, Streams*

* our speciality not covered anywhere

DURATION : 45 DAYS

FEES: RS.3000/-

1 WEEK FREE

CERTIFICATE AFTER ONLINE TEST

**FREE ACCESS TO VIDEO RECORDINGS
ON REQUEST & TUTORIAL SERIES**

Part-2 Full Stack Development

with 5 projects

JAKARTA EE

TOPICS COVERED

- Database Concepts, SQL
- Oracle Live SQL for Queries practice
- MySQL on the Cloud
- JDBC - Database programming
- HTML5/CSS/JavaScript/Bootstrap
- Web Development with Servlets & JSP
- JavaBeans component programming
- Using Maven build automation, pom.xml
- Linux VM & Docker Containers
- RMI & Socket programming
- Hibernate - ORM
- Spring MVC
- Spring Boot development
- Spring Data JPA
- Building REST APIs, Postman Testing
- Spring Transactions & Security
- Microservices, Eureka discovery, API gateway
- Deploy webapp on Azure/AWS cloud from GitHub
- Project on each module

DURATION: 3.5 MONTHS

FEES : RS. 7500/- (INSTALMENTS)

Java Interview Preparation

Perhaps the toughest technology to deal with.

INTERVIEW TOPICS

Detailed discussion on the topics mostly interviewed by companies of all scales.

These include OOP, Collection frameworks, Streams, Lambda expressions, Functional interfaces, Multi-threading, Spring boot, Hibernate, etc.

PDF NOTES ON INTERVIEW FAQ'S

Frequently asked questions in the interview and their standard answers to satisfy the interviewers to crack the Java developer interviews.

Mock Interviews: Interested candidates are interviewed by our experienced Java team.

**FREE ACCESS TO
VIDEO RECORDINGS &
TUTORIAL SERIES**

SQL/Databases, MongoDB, Collections, SpringBoot, django, etc.

Collections Framework

You can't crack any Java interview without Collections

**List
Queue
Set
Map**

We conduct a special 10 day workshop on all classes and interfaces of the Java Collections framework, Functional interfaces, Lambda expressions, Streams, etc. This will prepare you interviews of any level of company from services to products.

#1 development tool

Spring Boot & Microservices

Spring Boot is the most popularly used framework for application development in the industry today and It is the #1 tool in the job market for Java Developers profile.

Eureka Discovery Server & API Gateway

1

Spring Web MVC

Developing enterprise class web applications using the Spring MVC framework.

3

Spring Data JPA

Using Jakarta Persistent API for connecting and communicating with the databases with minimum efforts.

2

REST API development & Integration

REST APIs provide a flexible, lightweight way to integrate applications and to connect components in microservices architectures.

4

Spring Cloud and Spring Security

Developing Java application with authentication & access control and deploy the application on Cloud platform.

"Java is world's most powerful development technology of all times and today it is at the heart of our digital lifestyle"

Check the syllabus, experience and prices of other courses at other places before you join. Contact Sharayu, our Research & Training Head for more details

INTERNSHIP

Want work experience on JavaEE or Python development? do this -

Complete training

Get certified

Develop 5 project modules

- DB programming with MySQL/MongoDB cloud
- Web Development
- Hibernate/JPA/ORM Project
- Spring/Spring Boot development
- Microservices REST API development & integration

Upload to GitHub repository

Documents accepted worldwide

Along with a **Certificate**, We provide **Offer Letter** and **Experience Letter** on our official letter head that will help you in building your profile.

**Ask for a detailed
internship document**

THE TRAINER

The trainer Prafull (CodeName: Ethan Hunt) has more than 20 years of experience working with advanced technologies. He is a cloud and data development specialist.

He is a renowned, award winning speaker, writer, developer and analyst who has proved his abilities at a national and international level.

His curiosity about technologies, research and sincerity makes him one of the best in the business.

Certificate of Internship

To whom it may concern

This is to certify that **Mr. Pat Cummins** has successfully completed internship and worked with us in the Software Development department as a **"Trainee Java Developer"** from 1st June 2023 to 30th November 2023. During his internship, He efficiently handled development assignments on Enterprise Java tools such as Spring Boot, Spring Data JPA, Hibernate ORM and REST API's with Oracle, MySQL & MongoDB cloud databases. He also had exposure to Microsoft Azure Cloud platform.

We found him sincere, trustworthy and result oriented. We wish him good luck for his future.

Respectfully yours,

Prafull Manekar
Co-Founder - Director
SohamGlobal Group
